S W A T

They come from beyond . . . and only *you* can prevent them from taking over! Two futuristic forms of evil are headed on a video collision course. As a powerful SWAT agent, your mission is to fight off their impending doom. The only way is with laser fire . . . deadly bombs . . . and supersonic strategy. Bally Midway's newest challenge moves at a rocket-powered pace . . . one sled beyond your most cosmic video fantasies!

Just when you thought it was safe to go back into the Cosmos . . .

A Challenging New Battle of Space Strategy Pits You Against Ultimate Alien Forces!

Stop Them Before They Multiply!

As a futuristic SWAT agent, your mission is to stop the deadly cubes from moving to the top. At the start of each game, pink modules will begin to form at the base of the screen. Use your high-powered laser gun to keep them from closing in. Split a growing stack of pink modules in half and the upper cubes will float to the top and turn blue. But that's only the beginning . . . the danger is about to multiply!

When Push Comes to Shove . . . SWAT Back!

The pink modules continue to grow! Your only hope of controlling them is to destroy the mysterious orange substance within that helps them multiply. But now you have to contend with the threat of blue modules closing in. All the more reason to rely on your laser button. Destroy 10 blue modules and you'll earn a bomb that could come in handy for unexpected intergalactic guests!

Fighting Off Droids Can Be a Blast!

As the cubes mount . . . so does the tension! You'll be in constant battle with a surprise attack from enemy droids. But these creatures aren't about to share their space. Tough enough to withstand laser fire, the only way to destroy them is with a blast from your bombs! Ward off the droids, overpower the modules, and you'll advance to a challenging new zone!
